1.0 PURPOSE

This procedure provides the guideline to implement and administer the "Firefighter Mobilization Act of 2000" which was signed into law July 2000. This law created the South Carolina Firefighter Mobilization Oversight Committee. This committee shall establish the South Carolina Firefighter Mobilization Plan that this procedure outlines. The Firefighter Mobilization Plan is a state plan to assist any fire department in the state with resources if an event such as a fire, rescue, terrorism attack, hazardous materials event, or natural disaster occurs that cannot be handled by the local department. It does not take the place of any local mutual aid agreement but only enhances them by providing statewide aid. The plan can be implemented at any time at the request of an incident commander or can be implemented by the State Fire Marshal as part of the South Carolina Emergency Operations Plan and ESF 4 and 9 responses to possible conditions that could impact the state. Activation does not take a declaration of a State of Emergency by the Governor. To receive help the department must have a signed statewide mutual aid agreement on file with SCEMD.

3. South Carolina Emergency Operations Plan
4. ESF 4 and 9 SOP
5. Fire Fighter Mobilization SOP

3.0 DEFINITIONS

1. South Carolina Firefighter Mobilization Committee:
A committee established by state law 23-49-20 comprised of the following:

1. State Fire Marshal, Chairman
2. Director of the State Emergency Management Division, Vice Chairman
3. State Forester

The following are appointed by the Governor:

4. A County Emergency Preparedness Director,
John Angil term expires July 2006
5. Six fire prevention and control personnel serve three year terms:
 - a. Bruce Kline term expires July 7, 2005
 - b. Wendell Wilburn term expires July 7, 2005
 - c. Tony Hendrick term expires July 7, 2005
 - d. Tommy McDowell term expires July 2006
 - e. Phil Jolley term expires July 2006
 - f. Karl Ristow term expires July 2006

6. Executive Director of the South Carolina State Firemen's Association shall serve as ex officio, non-voting member.

This committee shall establish the South Carolina Firefighter Mobilization Plan which will have procedures and guidelines for dispatching and deploying rural and municipal fire and rescue resources and establish a system of regions in the state for managing fire and rescue emergencies utilizing an incident command system. The committee shall appoint the number of state and regional coordinators the committee considers necessary and sufficient for execution of the Firefighter Mobilization Plan.

2. State Firefighter Mobilization Coordinator - The person designated by the committee to be in overall charge of managing the state response for fire and rescue services. This will be the State Fire Marshal or his designee who also functions as the ESF 4 Co-Coordinator and ESF 9 Coordinator when the South Carolina Emergency Operations Plan is implemented.
3. Regional Firefighter Mobilization Coordinator - The person designated by the committee to be in overall charge of a region for the purpose of managing the regional response for fire and rescue services and reports to the State Firefighter Mobilization Coordinator. This position is a volunteer who is furnished equipment such as a lap top computer, cell phone, etc. by the State Fire Marshal's office. If this individual is a member of the fire service they must have approval of their department's management. When the Regional Firefighter Mobilization Coordinator is mobilized they are basically on loan from their department to the State Fire Marshal. They are not compensated by the Division of Fire & Life Safety for work hours but may receive travel mileage, meals and motel reimbursement in accordance with LLR policy. They will be a temporary employee of the Department of LLR and serve at the direction of the State Fire Marshal.
4. Firefighter Mobilization Regions - These are the same regions as used by the Fire Academy, which divides the state into seven regions.
5. Qualified Person - An individual who is at least 18 years old and meets the credential requirements as outlined in section 7.0 of this procedure, is listed as a member of a Firefighting Mobilization Plan team and has been given a Firefighter Mobilization identification card. They must also be registered as a firefighter with the State Fire Marshal's office.
6. ESF 4 – Emergency Support Function 4 is an annex of the South Carolina Emergency Operations Plan that deals with Firefighting. This ESF has co-coordinators. The State Fire Marshal is responsible for structural firefighting and the SC Forestry Commission is responsible for wildland fires.
7. ESF 9 – Emergency Support Function 9 is an annex of the South Carolina Emergency Operations Plan that deals with Search and Rescue. The State Fire Marshal is responsible for this ESF that involves the state fire and rescue service and coordinates with other State agencies and Federal Resources such as the FEMA USAR teams.
8. Participating Department - An Organization/Department, who have the personnel or equipment and is registered under the mobilization plan (Attachments, 8.2, 8.3, 8.4) and will be able to respond in state or out of state to an event such as a fire, rescue, terrorism attack, hazardous material event or natural disaster, when requested if resources are available.

9. Non-Participating Department - An Organization/Department, that does not have the personnel or equipment and is not able to respond outside of their local or local mutual aid area. For a Non-Participating Department it is important to register by completing attachments 8.2, 8.3, so the Firefighter Mobilization database will have up to date information in case the department needs assistance. At no time will an Organization/Department or fire station be denied assistance for Non-Participation. The State Firefighter Mobilization Plan is non-discriminatory on who receives the needed resources. Non-Participating Departments may provide a station as a staging area or housing for other emergency organizations.

4.0 SCOPE & RESPONSIBILITY

1. This procedure outlines how fire service and rescue organizations in this state should operate under this law that requires a Firefighter Mobilization Plan. It outlines how the Firefighter Mobilization Plan will be implemented to help protect the citizens and fire service personnel during any emergency. This plan does not take the place of any local mutual aid agreements and is designed to assist any fire chief with additional fire service and rescue resources when requested. Per this Firefighter Mobilization law, all fire and rescue resources requested and received shall be under the command of the local authority having jurisdiction during an emergency until such resources are released. This Firefighter Mobilization Plan may also be used if EMAC is implemented and South Carolina fire and rescue resources are requested to assist another state. No fire service or rescue resources shall respond within the state or to another state without being tasked and deployed per this Firefighter Mobilization Plan except those with mutual aid agreements and border counties who have mutual aid agreements with North Carolina or Georgia fire departments. The purpose of the Firefighter Mobilization Plan is to ensure a coordinated effort of fire and rescue resources from within the state or out of state and they are provided to a specific request of the appropriate authority within state or another state. When implemented, the State Fire Marshal is the coordinating entity.

5.0 PROCEDURE

DISCLAIMER

The Firefighter Mobilization Committee expressly reserves the right to change any of its guidelines or make exceptions to the guidelines stated here at anytime. This guideline in no way infers or implies a contract of employment. The language used in this document does not create any employment contract.

- 5.1 The South Carolina Firefighter Mobilization Oversight Committee was established by law and is required to establish the South Carolina Firefighter Mobilization Plan. The law designated this committee as being responsible for fire and rescue resource mobilization.
- 5.2 The Firefighter Mobilization Plan is a state plan designed to assist any fire department in the state with resources, manpower and equipment, if an event such as a fire, rescue, terrorism attack, hazardous material event or a natural disaster occurs that cannot be handled by the local fire department. It also is a plan to assist another state if they request fire and rescue resources thru the EMAC plan. The firefighter mobilization plan does not overrule or interfere with any local mutual aid agreements but only enhances them by providing statewide resources including manpower and equipment. It will be referred to as the Firefighter Mobilization Plan in this procedure.

- 5.3 The Firefighter Mobilization Plan can be implemented at any time at the request of an incident commander or it can be implemented by the State Fire Marshal or as part of the South Carolina Emergency Operations Plan and ESF 4 and 9 responses to possible conditions that could impact the state. Activation does not take a declaration of a State of Emergency by the Governor. To receive help, the department must have a signed statewide mutual aid agreement on file with SCEMD.
- 5.4 Firefighter Mobilization Plan activation for any emergency that has occurred:
1. The incident commander request help from his County EMD Director or calls the SCEMD warning point.
 2. The Incident Commander or County EMD Director contacts the SCEMD warning point at (803) 737-8500 or by radio with specific details of the emergency situation, resources requested, staging area location and a point of contact person and phone number so the State Mobilization Coordinator can make contact with the requester if needed.
 3. The SCEMD duty officer immediately contacts the State Fire Marshal/ESF 4/9 Coordinator, who notifies the State Firefighter Mobilization Coordinator.
 4. The State Firefighter Mobilization Coordinator immediately performs the following:
 - a. Notify all Regional Firefighter Mobilization Coordinators and together utilize or design an action plan. Per the plan, Regional Firefighter Mobilization Coordinators will request help from their county fire service contacts to mobilize the resources or place them in a stand by mode. Mobilized resources are sent a tasking sheet (Attachment 8.8) with a tasking number and are assigned to a specific staging location. The ESF 4 and 9 SOP may be utilized for planning and information. Reference the Firefighter Mobilization Plan Standard Operating Procedure section 5.0 for the specific type emergency event and various task force groups.
 - b. Notify the Director of LLR.
 - c. Makes contact with the SCEMD Response Operations Manager (or Duty Officer after normal working hours) and request any additional state or federal resources needed.
- 5.5 Firefighter Mobilization Plan activation for an impending emergency situation such as a hurricane, a terrorism threat or other similar event or a request by another state through EMAC for fire and rescue resources, will be implemented as follows:
1. The South Carolina Emergency Operations Plan may or may not be implemented, but the ESF 4/9 Coordinator/State Firefighter Mobilization Coordinator will contact all Regional Firefighter Mobilization Coordinators and advise them of the potential emergency situation. The State and Regional Firefighter Mobilization Coordinators will review the ESF 4 and 9 SOP and Firefighter Mobilization SOP, modify as needed or develop a new action plan and then alert, mobilize and stage resources per the SOP or action plan. Mobilized resources are sent a tasking sheet (Attachment 8.8) with a tasking number and are assigned to a specific staging location.

2. The ESF 4 and ESF 9 SOP, the Firefighter Mobilization SOP or a new action plan per the Firefighter Mobilization Plan will be utilized to pre-stage fire service resources and other State and Federal resources such as FEMA USAR teams based on the situation.
3. Notify the Director of LLR.
4. Make request per SCEMD procedures for other state resources or federal resources such as FEMA USAR teams.
- 5.6 When a request is made and the Firefighter Mobilization Plan is activated the State Firefighter Mobilization Coordinator will immediately notify all Regional Firefighter Mobilization Coordinators. They will review the availability of the closest resources within that region that are not already involved. Then the State and Regional Firefighter Mobilization Coordinators will develop an action plan and mobilize and task the closest resources available. For natural disasters such as a hurricane, tornado or earthquake, most resources within the region impacted will be committed in their own response area so resources from other regions will be needed. The closest Regional Firefighter Mobilization Coordinators will make contact and begin to locate resources, and per the State Firefighter Mobilization Coordinator's directions, mobilize them or place resources on local standby status with the potential to be mobilized as needed. For an impending hurricane, resources from the upstate may be alerted, mobilized and pre-staged and others placed on standby in accordance with the SCEMD procedures. See the Firefighter Mobilization Standard Operating Procedure.
- 5.7 The Regional Firefighter Mobilization Coordinator for the region where the resources are needed, will mobilize resources in their region, then deploy if needed to the incident command post to assist with coordinating the resources reporting to the staging area and help with accountability of manpower and equipment.
- 5.8 Each Regional Firefighter Mobilization Coordinator will task and track all resources they mobilize and track those placed on standby. Only those resources that have been assigned a tasking sheet and a number and tasked to respond will be utilized by the requesting organization.
- 5.9 The State Firefighter Mobilization Coordinator may assign other available Regional Firefighter Mobilization Coordinators to the incident command post so they can rotate shifts as needed. Large and long-term events will require rotating Regional Firefighter Mobilization Coordinators to manage and support the incident command team.
- 5.10 Mobilized personnel should bring adequate work clothing based on the weather, personal hygiene items, medicines, bedroll, food, and water for a three (3) day deployment (See Attachment 8.7 Personal Equipment check sheet).
- 5.11 Regional Firefighter Mobilization Coordinators will coordinate with departments that have personnel deployed to arrange for rotating crews. Those within 50 miles of home may be rotated every 24 hours. Those teams from more than 50 miles away should plan to rotate after a minimum of two days.

6.0 Resource Planning / Registration

6.1 Resources will be segregated into the following major groups:

1. Structural firefighting teams
2. Firefighting water supply
3. Wildland firefighting teams
4. Hazardous materials teams which include terrorism response teams
5. Rescue teams
 - a. Vehicle extrication
 - b. Building collapse
 - c. Confined space and trench rescue
 - d. High level rescue
 - e. Water rescue and swift water

6.2 The ideal plan is to have at least one task force for each of the above major groups from each county. For some counties with limited resources it will take a regional task force for some of the above teams.

6.3 Registration will be segregated into the following major groups:

1. Participating Departments are those with the capability to send vehicles/personnel to major emergencies in or out of state. The following registration Attachments 8.2, 8.3 and 8.6 must be submitted as follows:
 - a. To obtain a username and password from the Mobilization Database Coordinator. The department must have a signed statewide mutual aid agreement on file with EMD.
 - b. Then go to web site www.llr.state.sc.us/firemarshal.asp. There you will find a link to the South Carolina Firefighter Mobilization plan. Fill out the Request for Mobilization System Username and Password Form and then fax or mail the completed form to the Firefighter Mobilization Database Coordinator. The State Mobilization Coordinator will confirm the signed statewide mutual aid agreement. Then a username and password will be issued by a secure E-mail only.
 - c. The person with the username and password will then go online and input your department / station data into the Firefighter Mobilization Database.
 - d. Attachment 8.4 Firefighter Mobilization Plan Personnel Registration shall be completed and submitted to the State Firefighter Mobilization Coordinator who will review the fire chief's signature and enter the information into the mobilization database.
2. Non-Participating Departments should register by completing Attachments 8.2 and 8.3 so the Firefighter Mobilization Database will have up to date information in case your department needs assistance. Non-Participating departments may provide a station as a staging area or housing for other emergency organizations. The State Firefighter Mobilization Program is non-discriminatory on who receives the needed resources to deal with an emergency.

- a. Non-Participating departments may register by obtaining a username and password by following Registration 6.3,1 a, and 6.3,1 b.
- b. Go online and input your department's data into the Firefighter Mobilization Database, or complete the attachment on hard copy and mail to the mobilization database coordinator at the fire academy who will input the information into the Firefighter Mobilization Database.

7.0 Credentials and Qualifications Requirement

7.1 To ensure the safety of the citizens being served and the safety of all emergency services personnel, those persons who want to be a part of the Firefighting Mobilization Plan must be at least 18 years of age and medically qualified per OSHA 1910.156, 1910.134, 1910.120, be respirator qualified to wear an SCBA, be fit tested for their SCBA equipment, must be covered by their department's workers compensation insurance, and also must be adequately trained and qualified for the position indicated. Personnel must be registered as a firefighter with the State Fire Marshal's Office. The minimum training requirements are listed in section 7.2 for each of the five groups and other specific personnel. Fire departments who want their personnel qualified for any of these specific positions so their personnel can respond as part of the Firefighter Mobilization Plan must complete Attachment 8.4 for each of their personnel and circle either yes or no by the appropriate qualification requested with the chief's approval. The Fire Chief must sign the form and by signing this form is certifying his employee is medically qualified and qualified by training or equivalency to the recommended requirements listed in section 7.2 of this plan. Submit the Attachment 8.4 to the State Mobilization Coordinator and once the individual is entered into the database the Chief will be notified. Each person will be contacted about getting their State Firefighter Mobilization Identification Card that will list their qualifications and their personnel ID#. It will be the responsibility of each person to put their own medical information, Attachment 8.5, into their ID card.

7.2 Recommended Minimum required training for the following positions:

1. Firefighter, Interior or Exterior: Firefighter I, 2722, 1136 or 1137 & 1138, First aid or first responder and CPR, 2137. After January 1, 2005, Firefighter II replaces Firefighter I.
2. Pump Operator/Driver: Firefighter I, 2722, First aid or first responder and CPR, 1210, 1220, 2137 and a CDL or Class E license. For out of state response, driver must have CDL license. After January 1, 2005, Firefighter II replaces Firefighter I.
3. Wildland Firefighter: Firefighter I, 2722, 1136 or 1137 & 1138, First aid or first responder and CPR, 8335 or 8330 and 8332, 2137. To participate in out of state wildland firefighting, firefighters must obtain a National Wildfire Coordinating Group "Red Card" which requires 8330, 8331, 8333, and maintain an annual physical. After January 1, 2005, Firefighter II replaces Firefighter I.
4. Hazardous Materials Operations: Firefighter I, 2722, 1136 or 1137 & 1138, First aid or first responder and CPR, 2137. After January 1, 2005, Firefighter II replaces Firefighter I and 2751 is required.

5. Hazardous Materials Technician: Firefighter I, 2722, 2723, 1136 or 1137 & 1138, First aid or first responder and CPR, 2137. After January 1, 2005, Firefighter II replaces Firefighter I and 2751 is required.
6. Hazardous Materials Technician Specialist: Firefighter I, 2722, 2723, 1136 or 1137 & 1138, First aid or first responder and CPR, 2137, 2736, 2180, 2751, 2752, 2755. After January 1, 2005, Firefighter II replaces Firefighter I.
7. Incident Safety Officer: Firefighter I, 2722, 1136 or 1137 & 1138, First aid or first responder and CPR, 2137, 2150, 2128. After January 1, 2005, Firefighter II replaces Firefighter I. If wildland see number 3 above.
8. Technical Rescue Technician: Firefighting I, 2722 First aid or first responder and CPR, 3330, 3310, 3300. After January 1, 2005, Firefighter II replaces Firefighter I and 3390 & 3392 required.
9. Urban Search and Rescue Technician: Must qualify as a Technical Rescue Technician, 3311. After January 1, 2005, 3362 replaces 3311, 3314 or 3364, 3366, 3368.
10. Water Rescue Technician: Firefighter I, First aid or first responder and CPR, 2722, 3350. After January 1, 2005, 3351 and 3352 are required and Firefighter II replaces Firefighter I.
11. Company Officer: Must hold the position of Company Officer in their department, Firefighter I, 2137, 2128, 1136 or 1137 & 1138, 2722. If wildland see number 3 above. After January 1, 2005, Firefighter II replaces Firefighter I.
12. Command Officer: Must hold the position of Chief Officer in their department, Firefighter I, 2137, 2128, 1136 or 1137 & 1138, 2722, 2150. If wildland see number 3 above. After January 1, 2005, Firefighter II replaces Firefighter I and 2100 required.
13. Aerial Apparatus Driver/Operator: Firefighter I, 2722, 1136 or 1137 & 1138, First aid or first responder and CPR, 2137, 1210, CDL or Class E license. After January 1, 2005, Firefighter II replaces Firefighter I and 1250 required. For out of state response, the driver must have CDL License.

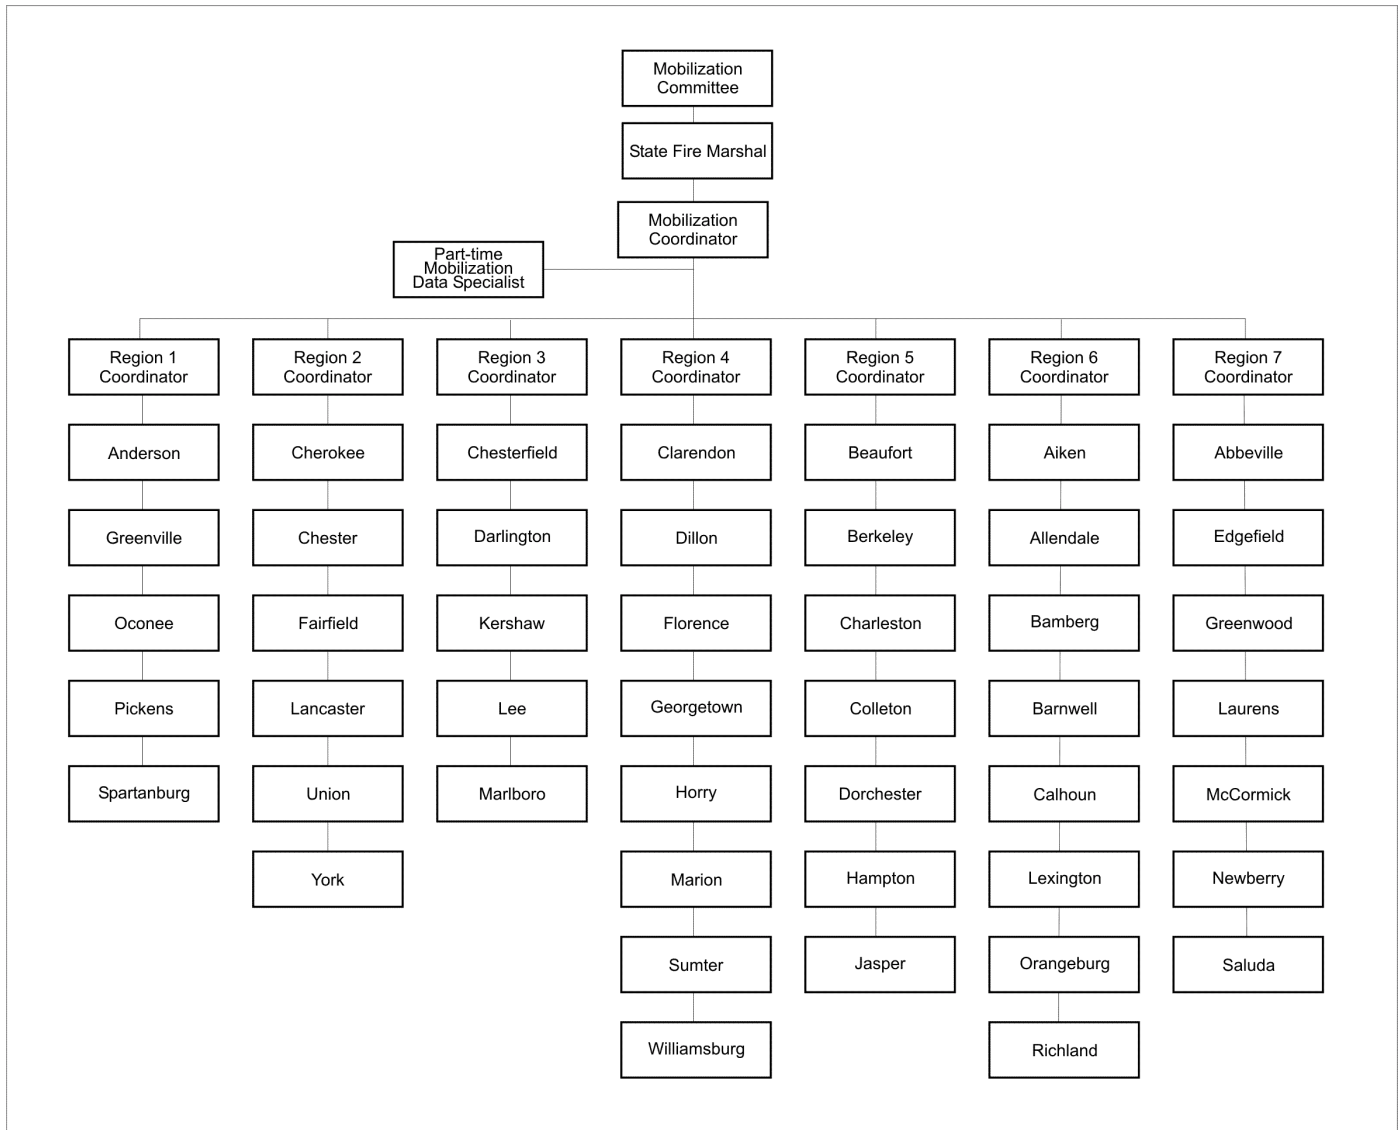

7.3 SC Fire Academy Course Index List

<u>Course Code</u>	<u>Course Title</u>
1136	Flammable Liquids/Gas Firefighting
1137	Flammable/Combustible Liquid Firefighting
1138	Pressurized/Compressed Gas Firefighting
1210	Emergency Vehicle Driving Training
1220	Pumper Operations I
1250	Basic Aerial Operations
2100	Fire Officer I
2128	FF Safety And Survival: The Company Officer's Responsibility
2137	Incident Command System
2150	Incident Safety Officer
2180	Chemistry Of Hazardous Materials
2722	Hazardous Material Operations
2723	OSHA – Haz Mat Technician
2736	Emergency Response To Chlorine Incidents
2751	Emergency Response To Terrorism: Basic Concepts
2752	Emergency Response To Terrorism: Incident Management
2755	NBC Terrorism Awareness
3300	Confined Rescue
3310	Rope Rescue Operations
3311	Rescue Systems: Collapse Shoring Operations
3314	Rescue Systems: Moving & Lifting Heavy Objects
3330	Basic Auto Extrication
3350	Water Rescue Operations
3351	Swift Water Rescue Technician I
3352	Swift Water Rescue Technician II
3362	USAR Building Collapse

8.0 Attachments

1. Attachment 8.1 Organizational Chart
2. Attachment 8.2 Organization/Department Registration: All organizations/departments, whether participating or non-participating, should complete this form to ensure they are registered in the Firefighter Mobilization Database. If non-participating, still complete the attachment so the Firefighter Mobilization Database will have up to date information in case your area needs assistance. At no time will an organization/department be denied assistance for non-participating.
3. Attachment 8.3 Fire Station Registration: All organizations/departments whether participating or non-participating complete this form so your Fire Station and Chief are listed in the Firefighter Mobilization Database. This will ensure we have up to date information in case your area needs assistance. At no time will a Fire Station be denied assistance for non-participating. Provide information on parking area, lodging of personnel, building, air compressor, fueling capability and emergency power.
4. Attachment 8.4 Personnel Registration: Individuals must be registered as a firefighter with the Fire Marshal's Office to be considered for the Firefighter Mobilization Plan. Affiliation with the organization, paid/volunteer or fire/EMS. Name, address, emergency contact for each Firefighter Mobilization Plan personnel. Medical information is for personnel ID card only.
5. Attachment 8.5 Insurance Policy / Medical Information: Once an individual is qualified as part of the Firefighter Mobilization Plan they will complete this form and insert into their own Firefighter Mobilization ID card. The medical information will be used only in case of a medical emergency.
6. Attachment 8.6 Equipment Registration: Provide vehicle and equipment information and recommended minimum staffing levels for each vehicle.
7. Attachment 8.7 Personal Equipment Check Sheet: A checklist for mobilized personnel to use to help remind them of personal items they will need for deployment.
8. Attachment 8.8 Resource Tasking: This Tasking Sheet will be provided to each team that is mobilized. Only personnel and equipment (teams) with a Tasking Sheet will be permitted to participate in the mobilization incident. It is very important to keep up with the equipment mileage and personnel time for every incident for possible reimbursement.

Vehicle Stocked Medically: () ALS () BLS () First Responder

This Section Completed by Mobilization Database Coordinator

Equipment Classification Code: _____

SOUTH CAROLINA FIREFIGHTER MOBILIZATION PLAN

Personal Equipment Check Sheet

If a major event occurs it could cause extensive damage to community resources, and the amount of mobilized resources will cause more of a drain on the local community resources. To ensure essential personnel needs, mobilized personnel should prepare themselves for a multi-day operation without relief. Personnel will need to bring adequate work clothing based on the weather, and a three-day deployment.

- _____ Food / Water (at least three day supply)
- _____ Full set of NFPA compliant protective Structural Firefighting gear / SCBA (coat, pants, helmet, gloves, suspenders, boots, and flash hood).
- _____ Full set of Wildland fire PPE (including fire shelter)
- _____ Infectious disease control kit, with basic body substance isolation items (gloves, goggles, pocket mask, etc.)
- _____ Shirts (at least three)
- _____ Sweat shirts (at least three, based on weather)
- _____ Pants (at least three; no shorts while on deployment)
- _____ Socks (at least three pair)
- _____ Boots/Consider extra pair
- _____ Jacket (based on weather)
- _____ Under clothing (at least three sets)
- _____ Personal toiletry items (soap, shampoo, deodorant, toilet paper, shaving kit, towels, etc.)
- _____ Medicines (at least a weeks supply)
- _____ Bed roll & pillow (cot optional)
- _____ Eye glasses / Contact lens (extra set)
- _____ Money
- _____ Identification materials

SOUTH CAROLINA FIREFIGHTER MOBILIZATION PLAN RESOURCE TASKING

Date: _____ Tasking # _____

Event: _____

Department Name: _____

Report to staging at: _____
